STONEWARE

Whether you are a clay novice wishing to experience a mid-range glaze, a professional looking for pre-made shapes or you simply want to focus your creativity on glaze work alone, Mayco's Stoneware bisque is your solution.

- Pristine white body.
- Bisque has been soft fired to cone 04-03.
- Designed for use with cone 5/6 mid-range glazes.
- Oven, microwave, freezer, and dishwasher safe.

For ovenware, we recommend that the ware be placed in a cold oven, warming as the oven pre-heats. Then, the stoneware can be removed from a hot oven, allowing to cool to room temperature. Avoid drastic fluctuations in temperature (freezer to oven, oven to freezer) to prevent thermal shock within the clay body and glaze.

For artists wishing to use a low-fire glaze with Mayco's Stoneware bisque, check the individual color labels for cone 6 firing results so you'll know what to expect.
